COMITTEE MEETING: The GVL2040 Steering Committee received an overview from Planning Consultants and engaged in group discussions regarding the following agenda.

Consultants shared with the members that Phase 3 of the project is complete at the end of February, and next month, March, will be moving into Phase 4.

2. Scenario Review and Discussion

Consultants presented to the committee as a whole three potential scenarios for future growth plans in the next 20 years. The committee engaged in large group discussion to understand the general differences, benefits and costs between the three potential scenarios.

After the large group discussion, the members broke into three sub-groups to further discuss and evaluate the potential scenarios. Discussions centered on whether the potential scenario was in alignment with the proposed values and planning principles created by community input received to-date.

The potential scenario poster activities were also presented at the Public Open House 3 on the following day.
